

# I am Romy

## BMS GRADUATE

### Today I work as

Strategic Purchaser, Service (Global Procurement) at Vestas Wind Systems A/S in Denmark.

### I decided to study at HOST because

... everyone I met at the University and in particular, who has been working with BMS was very enthusiastic about the study program. I had the impressions that beside theory there is a great focus on practical experience from the professors/lecturers professional life, and practical application. Additionally it gave me greater opportunities for an international career since lectures were taught in English. It turned out the impression was just right.

### I especially liked

... the small group size of the classes which created a familial atmosphere. The same goes for the complete study program. Professors, lecturers and everyone in administrations have been available and supportive at all times. Especially the BMS coordinator always had an open door and a piece of good advice.

Additionally, I liked that the program went beyond classical classroom teaching and provided the opportunity to join excursions, organize a forum, and do group work e.g. presentations and assignments.

### My BMS-study in 3 words

EDUCATION WITH FUN
