REQUEST FOR EXTENSION OF STAY DURING ERASMUS+ MOBILITY

Irrespective of the type and number of mobility activities, a student may be supported for Erasmus+ periods abroad for a total of up to 12 months per study cycle.
The maximum duration of support refers to the study cycle, not to the field of study.
Not only the financially supported period is counted towards the Erasmus time quota, but the entire Erasmus funding period including the Zero Grant shares.

Any extension of the funding period must be requested by the participant at least 30 days before the end of the original stay.
